I am a passionate React.js Developer with strong experience in building responsive and dynamic web applications.

I specialize in JavaScript, React, Redux Toolkit, and Tailwind CSS to deliver modern and user-friendly interfaces.

On the backend, I work with Laravel to build robust APIs and efficient server-side solutions,

and I also have experience with Strapi CMS for headless content management.

## Projects

### LearNova-Educational platform :

Feb 2025

A modern e-learning platform built with React.js, Redux Toolkit, Tailwind CSS, and Framer Motion featuring both dark and light modes for better user experience. The backend is powered by Laravel, providing a secure REST API and authentication handled through Laravel Sanctum. The platform allows seamless user registration, login, and personalized learning access with a smooth and responsive interface.

### Flyza Airways :

Apr 2025

Developed a flight booking web app using React.js, Redux Toolkit for state management, Strapi CMS for content handling, and Tailwind CSS for responsive design. Implemented smooth routing to enhance user experience and streamline the booking process.

### TIKMOL e-commerce :

Sep 2024

Developed a responsive Electronics e-commerce website using React JS, and Context Api for state management, with login system, Integrated Laravel APIs for backend functionality and implemented Nova Dashboard for admin panel management.

### Educational platform :

May 2024

An educational platform that allows you to choose courses, start watching videos, and comment on any video using Laravel and Nova Dashboard.

### Weather App :

Jan 2025

A simple weather app built with React JS for the frontend, Tailwind CSS for styling, and RESTful API to fetch real-time weather data, offering users an interactive and responsive experience.

### Store management system :

Feb 2024

A warehouse management system for selling products where you can add, delete, modify and search for a specific product using HTML CSS JavaScript.

### Clothes e-commerce :

May 2023

Full Stack e-store where ReactJS front-end and Strapi CMS Dashboard back-end and Tailwind Css.

## Core Skills

HTML, CSS, JavaScript, TypeScript, React Js, Redux Toolkit, Next Js, Laravel, RESTful APIs, Tailwind CSS, Material UI, Strapi CMS, Git & GitHub

## Education

**LATTAKIA UNIVERSITY :**

**Bachelor** Information Technology Engineering

**JAVASCRIPT CERTIFICATE – SOLOLEARN :**

**Certificate** Completed an online course covering core JavaScript concepts including variables, functions, DOM.

**Web Development Training – Techno Home :**

Aug 2023 - Nov 2023

Completed a hands-on web development course covering HTML, CSS, JavaScript, and React. The training focused on building responsive user interfaces, using modern tools like Git and REST APIs. Also gained basic backend knowledge with PHP or Laravel. This program enhanced my practical coding skills and prepared me for real-world development tasks.

## Languages

**Arabic** (*fluent*), **English** (*Good*)

## Additional

- Able to learn new technologies quickly.
- Team player with impactful contributions.
- Passionate about continuous growth and improvement.
- Handle pressure and responsibilities effectively.
